

# AQUATIC & WETLAND

RESEARCH LABORATORY

## ABOUT US

The Aquatic and Wetland Research Lab is a State Certified Laboratory that monitors the water quality of lakes, rivers, reservoirs, and wetlands across the state of Iowa.

We are looking for motivated students to assist with water quality monitoring and analysis this summer 2025.

## AVAILABLE POSITIONS

**Now hiring for full time summer employment**  
**Opportunity to start early during spring semester**  
**Available to current students - including graduating seniors**

### LAB TECHNICIANS

- Prepare and analyze water samples for a variety of analyses (phosphorus, nitrogen, chlorophyll and more)
- Operate water quality analysis equipment (Spectrophotometers, titrators, fluorometers and more)

### FIELD TECHNICIANS

- Travel to sample sites on lakes, rivers or wetlands across Iowa for water sample collection
- Deploy & operate water quality equipment (boats & trailers, YSI Sondes, Wisconsin Nets, automated samplers and more)

## WHY JOIN OUR TEAM?

- Competitive wages: \$15/hr for students, pay increase for recent graduates
- Gain hands on experience in water quality sample collection and analysis
- Prepare for a career in environmental science
