Job Duration: September 2024 to February
2025

of Positions: 2

Job Duties: Assist with rocket netting,
banding, neck collaring, ground surveys,
VHF tracking, hunter harvest sampling,
equipment maintenance, data entry.

The California Department of Fish & Wildlife is hiring two scientific aids to assist the Waterfowl Unit from **September to February**. These are great positions for those passionate about waterfowl as we use a variety of field techniques including rocket-netting, banding, neck collaring, and VHF radio tracking of waterfowl, among others.

All applicants must apply by **July 15, 2024** through either CalCareers websites (JC-434530: [CalCareers](#), JC-434532: [CalCareers](#)), **and** email their resume and cover letter directly to me, caroline.brady@wildlife.ca.gov.
