

Seasonal Waterfowl Nest Searching Crew Leader, Technicians, and Corvid Technicians Manitoba, Saskatchewan, Alberta, and South Dakota

EMPLOYMENT PERIOD:

3/1/2024 to 7/15/2024 -Corvid Technician (flexible start and end dates)

4/15/2024 to 8/1/2024 – Crew Lead and Technician Positions (flexible start and end dates)

POSITION SUMMARY:

Delta Waterfowl is seeking several technicians and crew leaders to fill a variety of positions this upcoming field season. Applicants will conduct a variety of tasks including nest dragging and overwater nest searching, conducting Unmanned Aerial Vehicle (UAV) surveys, nest monitoring, pair and brood surveys, and predator removal efforts, including trap deployment/checks and other methods of predator removal (Corvid technicians). Housing is provided at all field sites and compensation for these positions will vary depending on the position but will be a minimum of \$17.10/hr Canadian (or US dollar equivalent for technicians working in South Dakota) with crew leaders and Corvid techs getting \$2.00/hr more depending on the position.

REQUIRED QUALIFICATIONS: To perform this job successfully, an individual must be able to perform each essential function satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required.

- Must have received or be working towards a bachelor's degree in Wildlife Management or a closely related field.
- The ability to accurately identify waterfowl is critical, especially hens.
- Must be able to navigate using a handheld GPS and legal land description maps.
- Must have good communication skills and reliable data entry and note-taking skills.
- Ability to perform assigned responsibilities with minimal supervision.
- A valid driver's license and clean driving record is required.
- Must possess or be able to get a valid Canadian UAV pilot license (MB and SK positions only; instructions and study materials will be provided and Delta will provide additional training).
- Must have or be able to quickly obtain a passport for working in Canada (for positions in Saskatchewan, Alberta, and Manitoba).
- Ability to stand, bend, lift heavy objects, walk over uneven ground, and complete physically demanding tasks on a routine basis.
- Completion of a firearms/hunter safety course and familiarity with shotguns (Corvid Technicians).
