My lab at ERDC is looking to hire someone very soon. Some knowledge of aquatic invasive plant species is expected but not necessarily required. As long as you are willing to learn, I can work with you.

Job duties will range from helping me with lab duties, maintaining plant cultures, assisting with experiment set-ups, cleaning, etc.

- MUST be dependable
- Bachelor’s degree is preferred, but we can work around education requirements.
- Pay is contingent upon education.
- Lab experience is preferred.
- This is a CONTRACTOR position through ORISE, meaning this is NOT a federal position.
- Occasional travel may be required
- If you don’t like working outside, this isn’t the job for you.
- We work with insects. If you are afraid of bugs, this isn’t the job for you.
- If you don’t like getting dirty, this isn’t the job for you.
- If you don’t like cleaning, this isn’t the job for you.
- If you can’t work independently, this isn’t the job for you.

The position hasn’t been posted yet, but if you’re interested, please email your resume/CV to Nathan.e.harms@erdc.dren.mil and Ashton.b.derossette@usace.army.mil
