initiatives. General duties will include all aspects of wildlife habitat planning, contract coordination, conservation plan writing, site assessment/eligibility determination, program promotion/outreach, landowner technical assistance, reporting, and assisting with habitat and population monitoring.

**Specific Duties:**

- Provide technical assistance (wildlife habitat focus) and guidance to private landowners, government agencies, non-government organizations and other groups for USDA NRCS conservation programs. Training provided jointly by NRCS, MDC, and QF.
- Coordinate the implementation and application of wildlife habitat programs within Focal Areas in cooperation with partner agencies.
- Complete conservation plans, job sheets, wildlife habitat evaluation guides (WHEG) and other required documentation for the conservation programs requiring biological expertise in cooperation with the listed partners.
- Communicate program requirements, complete site visits to determine eligibility, and develop contract documents for applicants and participants of USDA-NRCS conservation programs and other local and state programs.
- Review plans and specifications for feasibility for implementation under Farm Bill program contract rules, etc.
- Assist in population monitoring and plant inventories.
- Accelerate conservation program enrollment by conducting outreach such as workshops, field days, demonstration events, and habitat tours.
- Provide on-site landowner technical assistance for conservation practice implementation.
- Work with local QF chapters to assist with habitat program education and outreach and provide technical assistance for habitat projects.

**Desired Knowledge, Skills, and Abilities:**

- Ability to communicate clearly and effectively with landowners and partner agencies.
- Ability to work independently and with diverse clientele. Must be a motivated self-starter with strong interpersonal skills.
- Knowledge of wildlife ecology, forest and grassland management including the ability to utilize various habitat management tools in the development of management plans, particularly prescribed fire.
- Technical and practical knowledge of natural community management in grassland and woodland systems.
- Knowledge of conservation and wildlife programs provided by federal (i.e., Farm Bill, US Fish and Wildlife Service), state, & local entities.
- Knowledge of or practical experience with agricultural systems and farming.
- Excellent verbal and written communication skills.
- Strong organizational skills, with demonstrated ability to manage demanding workloads.
- Proficiency with ArcGIS or ArcPro, GPS, *Microsoft Office Suite (Excel, Word, PowerPoint, Outlook, etc.)* is required.
- Valid driver's license required; some use of personal vehicle required (mileage reimbursement provided).
- Must be able to obtain USDA Federal Security Clearance.

**Training and Experience Guideline:** Any combination of training and/or experience that will enable the applicant to possess the required knowledge, skills and abilities. A Bachelor of Science Degree in Wildlife Management, Forestry, Grazing or closely related natural resources field is required at a minimum. Proven experience working with USDA Farm Bill programs is also preferred. The ideal candidate will exhibit a balance of technical knowledge and interpersonal skills required to implement voluntary conservation programs on private lands. A successful applicant must enjoy working with private landowners to achieve their objectives. Demonstrated interest, training, and experience in forestry, grazing, and wildlife is also ideal.
