Come join the USFWS Alaska Regional Invasive Species Team for the 2024 field season! These positions help efforts across the state to minimize the impacts of invasive species on Alaska. Projects include surveying and responding to invasive plants and animals, watercraft inspection and decontamination, outreach to target audiences, implementation of integrated pest management practices, and other duties as needed. We are looking for at least six members to be a part of our four teams working throughout Alaska.

**Position Information:**
GS 5 (~$20.36/hr.); includes locality pay, cost of living allowance, and potential overtime ($30.54/hr.)

**Available Positions:** Temporary/Seasonal Biological Technician

**Employment Period:**
Potential range from April to September 2024

**Job Announcement:**
