Subject: Internship opportunity for Iowa State University students

Greetings,

I want to share an internship opportunity that may be of interest to your students. This is the fourth year that we are offering the [Jeremy Brooks Memorial Internship](#) in collaboration with Trout Unlimited. This internship is awarded annually to an undergraduate or graduate student pursuing a career in river conservation or related field.

Given Iowa State University's focus on environmental science and conservation, we feel your students might be a good fit for this opportunity. Interested applicants should submit their application via the link above and to jbrooksinternship@gmail.com, including a resume and and short essay or cover letter that discusses:

1. Your passion for conservation, including a desire to be in the field/on the water
2. Your passion for fly-fishing and the outdoors
3. Your availability and desired location

Please feel free to reach out if you have any questions. If you do end up sharing the internship with your students, please let us know!

Warm regards,
Lila Boiko
