Current job openings:

Fisheries Research Technician

Location: Manchester, IA

Closing Date: January 16, 2025 - 11:59 PM

The DNR's Fisheries Bureau is seeking a motivated Stream Fisheries Research Technician. This position plays a crucial role in identifying and solving problems affecting Iowa's stream fisheries resources, helping to design and conduct research projects, assist fisheries managers to implement research findings, and provide the public with information about research and management of stream fisheries.

Northwest Fish Management Regional Supervisor

Location: Northwest Iowa

Closing Date: January 21, 2025 - 11:59 PM

The DNR's Fisheries Bureau is seeking a Regional Fish Management Supervisor to lead fish management programs across 31 counties in northwest Iowa. This key leadership position oversees fisheries operations, habitat improvements, public engagement efforts, and statewide programs with an eye toward protecting Iowa's aquatic resources and enhancing recreational fishing opportunities. This position offers a unique opportunity to shape the future of Iowa's fisheries, collaborate with local and national partners, and lead a dedicated team of professionals. The ideal

candidate will bring strong leadership, technical expertise, and a passion for conservation to Iowa's natural lakes region.

Prairie Resources Unit Biologist

Location: Lehigh, IA

Closing Date: January 24, 2025 - 11:59 PM

The DNR's Wildlife Bureau has an exciting opportunity for a biologist to serve as the Prairie Resource Unit Manager at the Iowa Prairie Resource Center in Lehigh. This position leads the unit in achieving the production, harvest, and distribution of native prairie plant seed to support prairie enhancement and establishment goals on public lands managed by the Wildlife Bureau. This role involves a combination of technical guidance, habitat management, administration, operations, and public engagement.

Fish Culture Research Technician

Location: Moravia, IA

Closing Date: January 24, 2025 - 11:59 PM

The DNR's Fisheries Bureau is seeking a Natural Resources Technician 1 to serve as an integral part of the Fish Culture Research team. This position assists with applied research to make fish hatcheries more efficient, productive, and provide future direction. Increasing productivity at state hatcheries results in more high-quality fish for stocking into bodies of water for anglers. Primary job duties of the successful candidate include maintenance of fish culture; buildings, grounds, and equipment; along with data collection and entry.
