

Job Opening

Employer: Matt's Healthy Woods & Wildlife

Job Title: Wildlife Habitat Technician

Job Type: full-time, seasonal (summer 2026)

Start Date: May 2026 or as available

Starting Pay: \$23.85/hr

Location:

- Near Hatfield, MO in Harrison County, MO and Ringgold County, IA
- Occasional multi-day work trips around the state to assist on other projects may be required (travel expenses are covered)

Required:

- Self-motivation to stay on-task while working mostly without direct supervision
- Ability/desire to work outdoors all day in hot field conditions, and in sometimes thick forested environments in all weather conditions as needed
- Ability to drive to the client property

Preferred:

- Knowledge of tree identification and silvicultural methods in the Central Hardwoods
- Understanding and experience in wildlife habitat requirements and management
- Experience with tree felling and chainsaw operation
- Experience in operation of various types of equipment, including UTVs and tractors
- Education in Wildlife Management, Forestry, or related fields

Job Duties / Types of Projects:

- This position is an opportunity to work on a 5,000-acre private property that has been actively and intensively managed for quality whitetail deer. This is one of the highest-quality whitetail hunting properties in existence.
- Duties may include:
 - o Spot treatment of invasive plants throughout the property (primary duty)
 - o Cutting/spraying undesirable trees and shrubs
 - o Forest Stand Improvement thinning, both by chainsaw and hack & squirt
 - o Assistance with Timber Sale marking
 - o Assorted other tasks as needed
