JOB VACANCY ANNOUNCEMENT

Farm Bill Wildlife Biologist I or II
Brown County, MN
Application Deadline: February 4, 2024
Anticipated Start Date: Late March 2024

Overview & Job Duties:
Work in a joint capacity with Pheasants Forever, Inc. (PF), USDA Natural Resources Conservation Services (NRCS), Soil and Water Conservation Districts (SWCD’s), the Board of Water and Soil Resources (BWSR) and the Minnesota Department of Natural Resources (DNR) to promote, accelerate enrollment, coordinate, and implement the voluntary conservation provisions of the Federal Farm Bill and related state, local and other voluntary conservation programs. Activities will include program promotion, contract coordination, conservation planning, conservation plan modification, site assessment and reporting. Provide technical assistance to farmers/landowners on conservation planning, habitat planning and other wildlife related practices. Meet with local chapters of Pheasants Forever and other local partners to influence habitat management efforts and participate in statewide meetings. Attend Farm Bill Biologist training and assist in coordinating technical assistance efforts.

The incumbent will work in Sleepy Eye, MN. The incumbent is an employee of Pheasants Forever, Inc. and receives supervision from Pheasants Forever with daily instruction by the local USDA-NRCS and SWCD staff. The incumbent will serve as a USDA NRCS Conservation Programs Biologist providing biological/wildlife aspects of all USDA NRCS Conservation Programs, BWSR, SWCD and PF voluntary programs to private landowners and participants.

Duties:
• Help landowners identify plants and habitat on their property and guide them in improving those habitats for wildlife utilizing voluntary conservation programs from USDA NRCS, PF, BWSR and other local and state programs.
• Use science-based knowledge to improve habitat within the agricultural regions of the work area. This includes collaboration amongst staff, and being the in-house technical wildlife expert, and the go-to person for landowners within the work area who have wildlife and habitat related questions.
• Write contracts and other documents to help guide landowners in implementing voluntary conservation programs.
• Collaborate between partnering agencies to achieve habitat restoration and management goals for landowners and programs.
• Assist partners with all phases of the Conservation Reserve Program (CRP) conservation easement program, from outreach to title work to construction and reimbursement.
• Assist partners with all phases of the Reinvest in MN (RIM) conservation easement program, from outreach to title work to construction and reimbursement.
• Assist partners with outreach, contract development, and implementation of the Environmental Quality Incentive Program (EQIP).
• Perform other related duties as assigned.
• A quote from the previous Farm Bill Biologist in this position, “I get paid to walk through the prairie.”

Required Knowledge Skills and Abilities:
• Ability to communicate clearly and effectively with farmers, landowners and partner agencies.
• Ability to work independently with little supervision and with diverse clientele.
• Knowledge of wildlife ecology, wetland and forest management including the ability to utilize various habitat management tools in the development of management plans (e.g. mowing, prescribed burning, herbicide spraying, grazing, forestry mowing, etc.). Background in agriculture is a plus.
• Knowledge of conservation and wildlife programs provided by federal (i.e. Farm Bill, US Fish and Wildlife Service), state, & local entities. In addition, knowledge of how these programs are implemented in an agricultural landscape is desired.
• Knowledge in habitat requirements of pheasant, turkey, deer, waterfowl, monarch butterfly, native bees, and other grassland wildlife species.
• Excellent verbal and written communication.
• A background in GIS mapping or closely related program and skills.
• Strong organizational skills.
• Valid driver’s license required; some use of personal vehicle required (mileage reimbursement provided).
• Able to obtain USDA Federal Security Clearance.
What Your Week Will Entail:
Once the incumbent is trained in program details and specifications, then a routine will be developed, and they will start to
see an impact in their work area. During the growing season, the incumbent will spend an average of one to two days a
week in the field doing site visits, evaluating habitat, making habitat recommendations, identifying plants, and meeting
contractors on construction sites. The other three to four days a week will be spent in the office doing data entry, drafting
contracts, creating maps, and collaborating with partner staff on current and future projects. During the office time, there
will be numerous interactions with landowners, giving technical and program information. During the non-growing season,
more time will be spent in the office working on contracts, doing planning work in ArcGIS, still meeting with partners and
landowners on project development, with only one day every couple of weeks outside on-site visits and construction
projects. Outreach in the form of workshops, training events, letters, phone calls, and social media will be a year-round
activity to keep the public informed on current programs offered by USDA and other agencies.

Education and Experience Preferred:
Any combination of training and/or experience that will enable the applicant to possess the required knowledge, skills and
abilities. Either a Bachelor of Science Degree in Wildlife Management, Agriculture, Forestry or closely related natural
resources field; Or a technical degree in Wildlife Management, Agriculture, Forestry or closely related field and relevant
field experience. Experience in agriculture or grassland management practices is preferred.

Where You Will Work and Live:
Along the northern edge of the county is the scenic Minnesota River valley which supports an abundance of public land and
recreation opportunities. Brown county is in the heart of rural Minnesota with New Ulm being the largest town with a
population of 14,000 residents. This location is a gateway for a candidate who wants to spend weekends hiking the scenic
prairies of western Minnesota or drive to Minneapolis to take-in a sporting event. The beauty and wildlife of this landscape
will be enhanced by the incumbent by working with landowners to help them with wildlife related conservation practices.

Starting Salary: $38,000 to $43,900 commensurate with experience + benefits (see our benefits summary at
www.pheasantsforever.org/jobs).

To Apply: Please combine your cover letter, resume and three (3) references as a single Word document or PDF file
before uploading to the “Resume” area of your application on our recruitment website at www.pheasantsforever.org/jobs.
