

Internships -Full time- Part time

Iowa Native Trees & Shrubs in Boone County near Madrid is looking to hire spring, summer, fall interns. We grow over 90 native woody plants from Iowa seed we collect in the wild, using air root pruning technology. If you want to learn everything about Iowa's native plants from identification, germination, propagation, planting then this is for you. We are a small growing business looking for a passionate intern.

Job duties include germinating native plants from seed, potting/repotting, pulling weeds, pruning/, and lots of watering.

Requirements: must be able to lift 50 lbs, have an attention to detail with oftentimes tedious work, be self-reliant and have the ability to work alone for long periods and accomplish tasks. General knowledge of Iowa Native plants would be very helpful but not required.

Horticulture/Forestry background preferred. A Pesticide applicator license would be great.

Drivers license. Ability to work in Iowa weather, wind, heat, humidity, cold. Ideal person is a hard worker and interested in native plant propagation and has a laid back attitude.

Looking to gain experience on how to propagate native plants from seed using root pruning technology? If you're interested in learning more about native plants in Iowa, apply now! Very flexible scheduling including weekends available.

\$17hr to start, or more based on experience

Feel free to call or email me any questions!

To apply, send resume to:
