

The following positions are open currently on USA Jobs and would be great seasonal jobs for your seniors this summer. They must be over 18 years to apply but other than that, these jobs have low barriers of entry. The Recreation Technician has availabilities at multiple locations while the others are only at Jessieville. If you have any students that would be interested and need help applying, please reach out. Anyone at our office would love to help them join the Forest Service. Thank you and have a wonderful day!
